**Blairmore Wins
Fast Hockey Game**

About one hundred hockey enthusiasts witnessed a fast game of hockey on the Blairmore rink on Wednesday evening when the local players defeated the Coleman septette by a score of 10-7.

The game was, without a doubt, the finest exhibition of hockey witnessed in Blairmore for many years. The game was well played and but very little dirty work was indulged in.

In the first 20 minutes Coleman made the better showing and at end of the first period the score was 6-1 in favor of the visitors.

In the second period Blairmore's defense played remarkably well and stopped several rushes from the opponents. Only one goal was scored in this period and that one was in favor of Blairmore.

In the third and last period Blairmore had most of the time to themselves, and very soon evened up the score. The way the local boys played was not slow and amid great cheering from the spectators they finished the game by a score of 10-7 in Blairmore's favor.

Great credit is due the Blairmore boys for the splendid work done by them. They all worked nobly and were the recipients of numerous congratulations as they passed from the ice to their dressing rooms.

The line-up was as follows:

Goal	Goal	Goal
Lewis	point	point
Shaw	c. point	Easton
Turner	cover	Hogan
Goddard	center	Jenkins
Horton	left wing	right wing
Baker	right wing	Hatfield

The following scored for Blairmore: Horton and Goddard 2 each; Baker and Turner 2 each. The goals for Coleman were scored as follows: Higgins 2; Jenkins, Graham, Easton, Hogan and Hatfield, 1 each.

Masons Have

Annual Soiree

On Wednesday of last week the members of Sentinel lodge, Frank and Summit lodge, Coleman, held a joint installation in the Masonic lodge room at Coleman. R. W. Bro. Alex. Cameron, assisted by W. Bro. W. L. Oulmette, performed the installation ceremonies, when the following duly elected officers were installed for Summit lodge: W. M., A. M. Morrison; S. W., E. Disney; J. W., J. H. Ross; Treas., Alex. Cameron; Secretary, W. L. Oulmette; S. D., Levi Fletcher; J. D., Thos. Leysham; S. S., W. Hayson; J. S., H. G. Goodve; Tyler, David Roberts.

After the installation service was over, the fraternity adjourned to the Coleman hotel, where a sumptuous repast was served in the usual grand style by Mr. Murray, the proprietor. The Coleman orchestra dispersed sweet music while the guests satiated the inner man, after which speeches were delivered by R. W. Bro. Cameron, D. D. G. M.; W. Bro. W. L. Oulmette; W. Bro. Whiteside, and Bro. Price, Quigley, Morrison and others from Frank, Cowley and Fletcher Creek. About 2.30 a.m. the junior wardens toast. "Happy to meet, sorry to part, but happy to meet again," was given. The brethren then joined hands and all united in singing "Auld Lang Syne," thus bringing to a close an interesting and jolly time.

No doubt there are cheerful givers - but did you ever see one?

**MAN KILLED BY
TRAIN NEAR
PASSBURG**

The dead and badly lacerated form of Peter Gregori, a miner employed at the Police Flats mines, was picked up close by the railway track near Passburg on Wednesday evening at 8.30 o'clock. Gregori had been at Burnis that afternoon and it is supposed that while returning he was struck by a train which passed over his lower limbs and which caused his death. The Doctor was summoned but upon his arrival life was extinct. Coroner Pinkney examined the body on Thursday (today), but he did not consider an inquest necessary as he said that it was quite evident that Peter Gregori's death was caused by shock and hemorrhage by being run over by a train. Gregori was 30 years of age and was wedded with his parents at Passburg.

**BIG INDUSTRY
AT SOUTH FORK**

Eastern Capitalists Purchase Valuable Fire Clay Property and Will Erect Large Plant Thereon.

WAGON ROAD GREATLY NEEDED

Blairmore May Become Distributing Point Will Be Called

Hel of Whole District

A number of eastern capitalists have recently purchased a large and valuable tract of land at the South Fork containing an immense quantity of high-grade fire clay.

The land, of which there are 275 acres, is about 12 miles south of Blairmore and Frank and is within close proximity of the vast coal fields at the South Fork.

The deal was put through by D. W. Colvin, acting for other Blairmore gentlemen, and the price paid was about \$70,000. Those who disposed of their interests or part interests in the said property include D. C. Drain, Daniel Drain, J. A. MacDonald, J. B. Reuter, C. F. Sedgewick, W. T. Eddy and R. MacDonald.

As soon as the weather conditions permit a plant, costing upwards of \$75,000, will be erected on the property and the manufacture of fire brick, etc. will immediately follow. It is expected that some of the product will be ready for market by the early part of the summer. It is proposed to run motor trucks loaded with fire brick, from the factory to a point near Burnis where the valuable product of this new plant will be loaded on cars and sent to the markets of commerce.

This new industry will require many workmen, and will mean a large amount of money circulated throughout this district. It will mean a great boon to the South Fork country and will very materially help all The Pass towns.

It is more than probable that before the plant is in operation very long, Blairmore will be made the distributing point for the products. The opening up of such a great industry at the South Fork will no doubt tend to hurry the government in building the proposed wagon road from the "Commercial Centre of The Pass" to the rich country which is but ten miles south of this place.

Echoes From the Thriving Town of Coleman

Dr. Connolly, of Blairmore, was in Coleman on Tuesday attending to professional work.

J. W. Powell was up from Taber during the holidays, and renewed many old acquaintances in Coleman and Cardanville.

Rev. W. Simpson, of Lundbreck, conducted services in St. Alban's church here on Sunday last, Rev. L. Fordham being at Calgary.

At a recent meeting of the Cardanville local, of U. M. W. of A., Dr. Porter was elected as the miners' doctor by a large majority.

W. J. Verge, vice-principal of the public school at Raymond, and J. D. S. Barrett, the Blairmore quill pusher, were in town on Sunday.

It is reported that a huge brick and tile plant will be established in Coleman in the near future. Negotiations are in progress and everything points to an early realization of this new enterprise.

Several of the local dancers were in Blairmore on Monday evening last and attended the ball given by the "Gentlemen of Blairmore." They all report having a very enjoyable time and say that Blairmore knows how to entertain.

Public school re-opened on Wednesday with a new staff of teachers in charge. Mr. J. C. Jennings is principal and Mr. L. W. Lockhart is vice-principal. The other teachers are Miss McArthur, from Didsbury, Miss Hall from Montana and Miss Smith from Toronto.

The new town council held its first meeting on Tuesday evening when the following committees were appointed: Financial, H. G. Goodve, J. W. Johnston and R. Holmes; Works and Property, R. Holmes, J. W. Johnston and J. Swan; Police and License - S. Shoen, S. Leiski and H. G. Goodve; Fire and Light - H. G. Goodve, S. Leiski and J. Swan.

The local hockey team played a great game on their own ice on Friday evening last, when they defeated the Blairmore players by a score of 14-1. If our players get out and practice a little more they would stand a good chance of retaining the Frayer cup. We hope that the silverware will remain in Coleman, and that this town will retain its prestige in sporting circles.

Things are booming in Coleman at present and everything points to a season of great prosperity. The International Coal & Coke Co. are shipping over two thousand tons of high-grade coal per day, besides the five hundred tons which are required each day for the coke ovens. The McGillivray Creek Coal & Coke Co. are shipping over four hundred tons of coal per day and they intend to increase their output considerably in the near future.

A Miner Injured

James Gilganon was injured at the International Coal & Coke Company's mines at Coleman on Tuesday morning last. Gilganon was engaged in inside work when a quantity of coal fell on him, causing a dislocation of the hip joint and a compound fracture of the right arm. The injured man was immediately taken to the miners' hospital where his injuries, which were of a most painful nature, were attended to by Dr. Ross.

**Blairmore Engages in
Good Game of Hockey**

The Blairmore hockey players engaged in an interesting game of hockey on the home ice on New Year's day when they played Fernie. About 150 enthusiastic spectators were present and admired the great exhibition of the winter sport given by the local players. The score was 6-4 in favor of Fernie. Goddard played a good game and was a great help to Blairmore team. Grossack and Graham kept up their good reputation and made it interesting for their supporters. Lewis was in good form and made it unpleasant for the visitors. Although C. Lewis was badly injured in the early part of the game, his play was a pleasant surprise to the Blairmore sports. Horton stopped several fast and hard shots from the opposite players and did good checking. Hatherly did good work in goal and the large number that repeatedly cheered him as he stopped shot after shot, declared that he was the best goal keeper that had ever played for the home team.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all druggists.

TASSELED SHOES

A Story Showing That All Women Have Their Little Vanities

By CLARISSA MACKIE

Copyright © American Press Association, 1911.

Adelaide Finch looked timidly at the back of her husband's gray head as it bent over the weekly newspaper. "I only dare," she whispered to herself, "if I only dare speak to him about it, but Luke would make such a fuss!"

"You talking to me, Adelaide?" asked Luke, suddenly throwing aside his paper and turning around. "Yes, talking to yourself," repeated Luke good naturedly.

"Now, that there matter you was talking about to yourself. Was you saying 'only dare' or something like that?" He looked keenly at his wife's embarrassed countenance. "I sort of reckon you wasn't prying," he added grimly.

"What makes you say that?" demanded Adelaide sharply. All the bad mood had fled from her face, and she looked frightened. "I've noticed you ain't said your prayers for three or four days," he asserted reprovingly.

"No," flashed Adelaide, with sudden heat. "Nor haven't prayed for three weeks to a day, what's more. I'm not going to pray any more till—till some of my prayers are answered."

"It isn't what you were talking about to yourself?" inquired Luke with his usual masculine curiosity, yet a visible explanation was not forthcoming.

"It had something to do with it," Adelaide admitted this time. "Like as not the Lord thought it wasn't best for you, Adelaide. I suppose it

"I DON'T NEED ANY MORE HOT CALICO" was something foolish—something about women's feet. Luke surveyed her downcast face. "Wasn't it?" he insisted.

"Yes, Luke Finch, if you will know, all about it is this: 'Calico' you can look as shocked as you like; you said yourself there wasn't any trouble too small to carry to the Lord, in prayer and ask for his help, and I asked him about tasseled shoes."

"Tasseled shoes?" repeated Luke, again. "Tasseled shoes?"

"You want 'em for yourself?" "Of course I do. Did you think I wanted them for you?"

"Good land, no! But I didn't know women wore tasseled shoes, Adelaide. Luke was surveying his wife's neat, square-toed common sense shoe feet.

"There's a lot you don't know about women, Luke Finch," half sobbed Adelaide, dropping stitches with every tear. "I've wanted a pair of tasseled shoes all my life. Even when I was a little girl and the other children were cutting little boots with tassels at the top my father brought 'em down. And so I thought when I grew up I could have what I liked, but until I got married father had his say about what we girls wear, and he wouldn't hear of a pair of tasseled shoes. He said they were ugly."

"So they are—or they are?" interrupted Luke, smiling. "The women's sense of vanity for weak women."

"I don't suppose those pink suspenders you've got on are a woman's sense of vanity," retorted Adelaide.

Luke thrust his thumb under the pink suspenders and snapped the elastic cord. "That's different, Adelaide," he said softly. "Suspenders are made in fancy colors and I always get pink because it pleases me better than some other colors. Tasseled shoes are different."

"Fiddlesticks! I guess you could find a pair of plain white ones or drab ones, like the dresses you pick out for me."

"Adelaide Finch, would you wear a pink dress?" demanded Luke incredulously. "I would. Why not?"

Luke stroked his chin thoughtfully.

REMOVE THE MUMMIES.

Don't Leave Them on Peach Trees to Infect the Trees for Years

After all the fruit has ripened and come and the leaves have fallen there will still remain on many of the peach trees the dried up remains of peaches. These dry, withered peaches are called mummies, probably because they are dead and yet seem to exist a long time without rotting.

Unrotted peaches will hang on the tree all fall and winter, and often till far into the following spring when the new growing buds and shoots push them off. To all appearances they are harmless.

But the mummy on the peach tree is a source of great evil in the fruit orchard business. On its rotten side it carries hundreds of thousands of spores of disease. Next year these spores will be carried by wind, rain and other agencies to other trees, to cause the growing and ripening crop to rot.

Many years the peach tree blossoms freely, abundance of fruit sets and grows to maturity; the peaches begin to color and ripen, view all at once, within a few days, they all begin to rot. Almost before we know it all of the peaches on the tree are in the orchard have rotted. Where there was prospect for a large and valuable crop of perfect peaches now is only the bare, rotten, rotting trunk, and all has happened before we could help ourselves.

The remedy for disease in the orchard caused by spores is spraying and washing with bordeaux mixture. This mixture will kill and keep in check nearly all fungus diseases if the treatment is given in the right way and at the right times.

Of course it is needless to make the applications after the disease or rot has once got under way, any more than it is to give medicine to a sick animal when it is dying. The disease must be taken care of before it gets into the tree in the earlier stages if it is to do much good, and prevention is better than cure.

OUR PET DISLIKES

It Requires Much Will Power to Overcome Them.

RECIPE FROM CRESCENT CITY

One of the Novelties Devised by a Clever Woman Who is Always Thinking Up Something New in Ribbon—Where the Poodles Go.

My Dear Mrs. I am feeling scrappy today. Now, dear, don't get frightened and jump to the conclusion that I am about to tread on the toes of all your pet hobbles or make myself obnoxious for I'm not going to do anything of the sort. My pronouncement merely means that I'm in a conversationally scrappy state of mind. You know the mental attitude when those dark ink and set in a tangled undergrowth of thought. You remember how our English teachers used to say my mind a scrap heap affair, don't you? Well, it reverts to type every now and then, and today is one of the worst and the worst.

For the first scrap—haven't you heard people say, "Oh, I simply can't eat pork or olive oil," whichever the case may be?

Well, you haven't you known them to sit down and eat at another's dinner table and enthusiastically announce their delight in the delicious morsels—disparaging a clever hostess, who smiles in her sleeve?

Now, haven't you done these things yourself? Most of us do. We get pet dislike to our bosoms when we would be very much better off without it.

And an amusing instance of this at my own table recently. Mrs. Van A., a dinner guest of mine, was eating a second helping of that delicious soup. "Wasn't it lovely?"

But all our pet dislikes are not confined to eatables. I know that sometimes I take a perfectly unreasonable hatred to a person to whom I am positively sure I could find charming qualities if I would only look for them.

This does not indicate strength of character, as so many of my fondly imagined friends would have me believe, but weakness and one that requires a whole heap of will power to overcome.

Now for scrip No. 2—apple platters. Don't you love them? In New Orleans they make the best in the world, so I am going to pass along the recipe for them given to me yesterday by a woman visiting here in New York from the Crescent City.

These apple platters, as you know, are French preparations, made by combining almonds and currant jelly with apples as follows: Peel and core six apples. Have four ounces of granulated sugar and a pint and a half of water to make the syrup. When it comes to the boiling point add the fruit and cook it for fifteen minutes very gently, so that it will not break.

Then, the apples with a skimmer occasionally, so that they will cook evenly on all sides. On removing them drain them upon a cloth and let them cool off. Blanch two ounces of almonds, drain, peel and crush them and then put them into a copper basin, with a little sugar and a little water, and a little of water and a resplendent vanilla essence. Stir the mixture with a wooden spoon for half a minute.

Place it on a brick fire and stir continually until it is a nice golden color. Then remove from the fire. Arrange the apples on a deep, pretty plate, but don't forget to put a little of the almond mixture on each apple.

And, speaking of dishes, a friend recently gave me an exquisitely pretty fern, made chiefly of ribbons.

The colorings in the basket are pink and green, the ribbons being interwoven to give a woven effect. The fern is made of the ribbon in two shades of pink. The fern is artificial. It is a clever idea and the next party I give I will make a small formal luncheon party with it.

The loose crown is of black velvet and the high pointed bow of beige and cream pink grosgrain ribbon.

The other hat is an Imperial affair of royal purple velvet with the side rows covered with lavender hair medallions. The same kind of medallions is used as an ornament to support the head of the wheat, which is made entirely of ribbon.

Designed by Ora Cox.

TWO OF THE SEASON'S HATMAKERS.

The loose crown is of black velvet and the high pointed bow of beige and cream pink grosgrain ribbon.

The other hat is an Imperial affair of royal purple velvet with the side rows covered with lavender hair medallions. The same kind of medallions is used as an ornament to support the head of the wheat, which is made entirely of ribbon.

Designed by Ora Cox.

strings and keep the rows as smooth as possible.

Here's a big ornamental jump from ribbon baskets to pinholes.

A music loving mother who hopes to see her children develop into musical geniuses told me yesterday that she never let her hope, but she hopes many other mothers also have, but she blames the attractions of the piano. Children, she explained, had about quite a talent for music, but rebelled outright against further study when the piano became the property of a neighbor.

"What's the use of practicing," they would argue, "when we can make the machine play the tune with our feet?" And, though mothers' hopes may be blasted and neighborhoods may suffer from the number of pinholes "going out" over the still summer nights, the days will be more peaceful in the individual home.

The ears of the family will not be assailed by the sound of first finger exercises, and there will be fewer conclusions because play is preferred to practice. In fact, nowadays the only children who do their duty two hours work at the piano are those destined to be star performers later on. It's a pity, but accomplishments are no longer considered necessary in smart society. All one has to do are "stunts," which in most cases are purely imitative, more or less of a show or an accidental personification. If I don't stop scribbling I might get logical, and that would not be at all like MABEL.

New York.

To Wives.

Don't quote father. Let your husband. He's only a big kid.

Meet him at the door with a smile when he comes home.

Encourage his hobby.

Keep his clothes in order, a clean house and good food.

Be systematic and do not tell him all the troubles of the day. He has had his own share of troubles and is important individually than all yours put together.

Your husband is then yours forever and ever. No chert or pretty stenographer can take him away from you. But keep him or somebody else will snatch him up and make him think that she and she alone did or ever will understand him.

Encourage his hobby.

Farm and Garden

GETTING YOUR OWN GOATS.

Profitable Operation When There is Grass Land to Be Cleared.

If one has a field of brush land which he wants to clear there is no other stock that brings so large returns with so little care and expense as Angora goats. For the homestead in the mountains goats are the best kind of stock to keep. They are easy to handle and require little care.

Last year I took up some land in the Cascade mountains near the California line, says a correspondent of the Country Gentleman. Last spring I bought about ninety head of the best goats in the neighborhood, about a week before kidding time. This is when it pays to take the best of the goats.

Unlike a sheep, a goat does not take her kids in the brush in the same way that a doe hides her fawn. When kidding time is over the goats give very little trouble. The kids are left in the brush to play and sleep until their mothers come home at night. A flock of sheep of the same size would have to be

herded every day or the coyotes would soon destroy them. The goats keep together and face a coyote, while sheep run away in every direction, and a coyote is too much of a coward to attack any animals unless they are already running or overtaken.

There is a great difference in the price of goats. A good goat can be bought for from \$4 to \$5.50, according to the locality. I paid \$5.50 for mine, and each goat will average four pounds of mohair next spring. Mohair is in good demand, and the price is not likely to drop, as there is still a great amount being shipped from Australia, where the Angora goat originated.

Big Cattle Have Value.

Among the uses to which large corn stalks can be put is to employ them as substitutes for poles for any kind of twined fence, or for any other purpose. It is not difficult to select a wagon load of stalks ranging from eight to eleven or twelve feet in length and very firm texture, with an average diameter of nearly three inches at the base. After the leaves are removed the stalks may be piled into bundles of a dozen each and piled in some dry place to winter. If kept under shelter they retain their bright green and pale golden

Coleman Citizens Are Very Indignant (To the Editor)

Dear Sir:-
There has been taken and Coleman's Postmaster is amongst the plain. A more outrageous and disgusting act could hardly be perpetrated. Mr. Morrison was an efficient public servant, taking no part in politics and always attentive to his duties.

Much indignation is felt among Conservatives as well as Liberals over Mr. Morrison's dismissal, and in justice to the local Conservative party it should be stated that only three persons attended the caucus where the plot was hatched and those three now try to hide themselves behind a pretence.

I do not desire to be personal, but to show what consideration is given the public's eye, Mr. Editor, and the readers of your esteemed paper will be astonished to learn that the new postmaster can only write his own name with an effort. How, then, is it possible for him to perform his duties? Would a letter addressed to Macleod be sorted so as to safely reach its destination or would it have an equal chance to land in Brandon or Poncha?

The other aspirant to the postmaster'ship may be termed the "George Washington of Coleman" - never known to tell a lie (?) or to reveal a secret and, no doubt, he can read an addressed envelope, or a post card (on both sides).

How was the selection made? Will John Herroa please inform and justify the act? Mr. Borden should not be held responsible as I am sure he would stand for no such work.

Thanking you, Mr. Editor, for the anticipated use of your valuable space, I remain,

Yours very truly,
AN OLD-TIME CONSERVATIVE
Coleman, Alberta,
January 3rd, 1912.

Frank Wins From Fernie

Frank and Fernie met in a hockey match at Frank on New Year's morning and the contest was a hard one. Frank team, as usual, defeated their opponents. Score 7-6.

During the first period the play was fast on both sides, but it was mostly of the individual kind, very little combination being in evidence. Dubois, for Fernie, wanted the scoring and Murphy, of Frank, evened up with a long shot from point. MacKay and McLeod got two each for Frank and the first period ended with score 5-2. Burland, of Fernie, having found the net, too.

In the second twenty minutes the Frank team showed their lack of practice and did considerable blundering which did not add any to the excitement of the game. Fernie players had several good chances to score in this period, but owing to the fine work of McEwan, the goal tender, Fernie managed to land only one, Dubois doing the stunt. McLeod, of Frank, also got one goal, making the score 6-3.

From the start of the third period both teams went after it hard, Fernie making the best showing. McKay scored once for Frank, and Dubois, Gardiner and Dunlop each scored for Fernie, making the result 7-6 in favor of the home team.

Near the end of the game, Gaydiner was hit on the head with the puck, and although he was unconscious for several minutes he finished out the game.

Taken all round, the game was the cleanest and best exhibition of hockey seen here this winter, the Fernie boys proving to be good sports, instead of poor losers as is so often the case. It is to be hoped that the supporters will have the privilege of seeing more games of the same kind this season.

The lineup was as follows:

Frank	goal	Fernie
McEwan	point	Ferguson
Murphy	c. point	Burland
Rourke	rover	McEwan
McKay	centre	Gardiner
McLeod	left wing	Dubois
Dunlop	right wing	Dunlop
Scott		Wallace

THE CALGARY UNIVERSITY

Some resentment to the government of the province has been manifested in Calgary which city is experiencing in obtaining a charter from the legislature for the university which it wishes to establish in its midst.

Resolutions have been passed by the supporters of the government in Calgary, declaring it to be suicidal on the part of the Sifton administration, so far as Calgary is concerned, to refuse the granting of the said charter. In other words, the provincial government, in refusing the application for a charter, would lose the support of many Calgarians.

From our point of view, the government would be acting well within its rights in refusing to allow the establishing of a second university within the province at the present time. The Alberta university at Stratford is yet in the embryo stage. It lacks much in the way of buildings and adequate equipment, and even its student roll is far from being, as yet, what that of an institution of its kind should be.

The first need of Alberta educationally is a first-class institution which will favorably compare with like institutions in the other provinces. To secure this, all the educational resources of the province should, at the present time, be directed. It will take some years to accomplish this, and until it is achieved it seems to us that it would be unwise to attempt to set up a similar seat of learning in another place, the result of which would be two institutions offering inferior educational facilities; each struggling for existence and neither able to offer the advantages that students would expect. The result, instead of the province possessing a building to which its people could point with pride, would be that for years our students would have to leave the province to get the training which should be given them at home.

On the question of two universities for Alberta we think that other parts of the province should have something to say as well as Calgary. Leaving out the question of Calgary's having been passed over when the location of the university was decided upon, now that the site is fixed and no amount of crying can alter it, all the people of the province should unite in supporting the institution at Stratford until it is firmly established. When that is done, if the needs of the province warrant a second university it will be time for Calgary to think of establishing a like institution of its own.

Editorial Notes

The Lethbridge Daily News says: "There are more mine disasters in Canada than in any

civilized country." We like to ask, when did this Dominion return to barbarism?

In another column of this issue appears a communication dealing with the latest act of certain Conservatives in this district; the tactics of whom since the recent elections have been extremely unjust. The dismissal from office of postmaster Morrison, of Coleman, is an act that can be attributed to only the most contemptible and the most rabid partisans who have shown by this latest act that they would resort to the very lowest ends to gain their mean and unfair purposes.

Lundbreck Notes

Miss L. N. Shouldice is a guest at Mrs. A. H. Knight's.

Mr. Carson is the new night operator at Lundbreck.

School opened last Tuesday at Lundbreck. The teaching staff is the same as last year.

The Rev. W. Simpson, of this town, held divine services on Sunday last at Coleman and Frank.

Miss C. Knight and Mr. Harold Knight are at present home from Edmonton college on vacation.

H. F. Breckenridge, of the local mine, is expected back daily from his home in Westwood, Ontario.

A jolly party left here on Monday night last to attend the Bachelors' Ball at Cowley, and all report a good time.

Operations at the Galbraith mine have recently been suspended, pending consolidation with the Alberta Coal and Coke Co.

There was an excellent concert and dance at Webb's hall last Tuesday evening. "The man with the rubber face" made a great hit.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Stomach and Liver Tablets, keep your bowels regular and you will avoid these diseases. For sale by all dealers.

Constable Mead left Lundbreck last Monday. We hear that he is to be stenographer to Supt. Primrose at Macleod. Rumor persisting whispers of promotion for Constable Mead.

A few minutes before midnight last Sunday the Sabbath calm was broken by the tinny strains of the Breckenridge mine whistle. The bells of the local telephones rang in unison, conveying New Year greetings to friends.

No More Dandruff

S. J. Watson Knows What is
Making Clean Scalps

In order to rid your scalp of dandruff you must kill the germ. There is a hair dressing called Parisian Sage which is now sold in every town in Canada. It is guaranteed by S. J. Watson, of Frank, to eradicate dandruff, stop falling hair, splitting hair, and scalp itch in two weeks or money back.

If you have dandruff get a large 50-cent bottle to-day and rid yourself of it. Remember that if dandruff germs are not destroyed in time, the hair will surely fall out and baldness will follow.

Investment That Pays

No home in Western Canada can better invest a dollar than send it for a year's subscription to The Family Herald and Weekly Star.

That paper has been a blessing in thousands of Western homes. Its agricultural columns are as good as a course in a college. Its world's news page covers everything in the news line and its magazine section provides ample reading for the whole family. Any person seeing the beautiful picture "Home Again" in a shop window would readily give two dollars for it, yet it can be had absolutely free by sending a dollar for a year's subscription to the paper. Such a paper for a year with such a beautiful picture all for the price of a bushel of wheat is certainly a good investment.

Happenings in and Around Frank

The public school re-opened on Wednesday.

S. Murphy, of Macleod, spent the Christmas holidays in Frank.

P. E. Gensen, Manager of the Rocky Mountain Sanatorium, spent New Year's day in Spokane.

The cold weather has caused some trouble around town in the way of bursting water pipes, etc.

Rev. W. M. Simpson, the English Church minister from Lundbreck, held Divine services in Frank on Sunday last. He also held holy communion.

Mrs. A. L. Blais, accompanied by her two sons, Harold and Archie, left Frank last Wednesday to visit her home Ontario. Mrs. Blais will be away from town for two or three months.

In the absence of Rev. W. T. Young who is conducting revival services at Carmanagay, the pulpit of Knox Methodist church will be occupied by Rev. A. Lytle of Lethbridge.

Do you know that fully nine out of every ten cases of rheumatism are simple rheumatism of the muscles due to cold or damp, or chronic rheumatism, and require no internal treatment whatever? Apply Chamberlain's Liniment freely and see how quickly it gives relief. For sale by all dealers.

Special evangelistic services will be held in the Methodist church during the first two weeks of January. The pastor will be assisted by Rev. W. T. Young, of Frank, Rev. T. P. Perry, chairman of

Lethbridge district, and Rev. A. M. Lytle, of Westminster church, Lethbridge-Carmanagay Syn.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It soothes the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

T. Chambers Defendant In Two Assault Cases

On Thursday last, T. Chambers appeared in the police court at Frank, charged with having assaulted Samuel Shone on Christmas day and C. J. Tomkins on the preceding day. He pleaded guilty to the latter charge and was fined \$10 and costs. After considerable delay Chambers was found guilty of assaulting S. Shone and was fined \$2 and costs. Justice Gresham presided. L. H. Putnam acted for the defendant and H. C. Moore for the plaintiffs.

Happenings in and Around Blairmore

Miss S. M. Wambold, of High River, was in town on Monday.

W. R. Simpson was up from Lundbreck on New Year's day.

W. C. Robinson, of Cowley, spent several days in town this week.

W. A. Beebe attended the big dance at Fincher Creek on Friday.

J. G. Smith returned to town on Wednesday, after spending two weeks with friends at Dauphin, Manitoba.

E. J. Kalliel, of Parry Sound, was in town this week on a visit to his cousin, Alex. Kalliel, and left for his home to-day.

R. B. Bartlett came up from Macleod on Sunday and spent the early part of the week with friends in town.

Many citizens will be pleased to learn that Thos. Fraser is able to be about again, after being indisposed for a couple of weeks.

Mrs. Watson, of Homers, was in town for New Year's on a visit to her sister, Mrs. H. Gebb. She returned west on Tuesday evening.

The public school reopened on Wednesday. Miss Fulton, formerly of Coleman, has been added to the teaching staff of the local school.

The subject for Sunday morning at the Central Baptist church will be "The Enlarging Life." Evening subject, "Lessons Learned from a Hockey Game."

J. W. Verge, vice principal of the public school at Raymond, came to town on Friday evening on a visit to friends. He returned to Raymond on Tuesday.

Central Baptist church, Blairmore, Rev. J. P. Hunter, B.D., pastor. Sunday: Morning service at 11 o'clock; Sunday school at 2 p.m.; Young People's Class at 2:30 p.m.; Evening service at 7:30 o'clock. Prayer meeting on Wednesday at 8 p.m.

The watch-night service in Central Baptist Church was largely attended, and the passing out of the old year and welcoming of the new was fittingly and solemnly observed. Prior to and after the service refreshments were served by the ladies of the church.

The First Presbyterian Church will hold its annual meeting on Wednesday next, January 10th, at 8 p.m., in the mission hall, when reports from all the various organizations will be given. Refreshments will be served at the close. All members and adherents are urgently requested to be present.

The large sale for the branch of the Royal Bank of Canada, which is to be established in town, has arrived and is being installed in the western portion of the Edgemoor block. Mr. Tait, the manager for the new bank, will arrive in the course of another week or ten days after which the new institution will be ready for business.

The "Gentlemen of Blairmore" gave a successful ball in the opera house on Monday evening last. The house was beautifully and tastefully decorated for the occasion and the large number of dancers greatly admired the wonderful scenes. The Macleod and Blairmore orchestras were engaged and correct and pleasant music was rendered. Large number of roses were imported from Spokane and were freely distributed amongst those present. Everything possible was done to make the affair a huge success. Many declared that it was the best assembly and most pleasant event ever known in Blairmore.

We all listened for the whistle at the power house to herald the advent of the year 1912, but the only noise we heard was what the wind whistled over the slide from Frank and Blairmore.

The "Sherbats" gave an entertainment in the Socialist hall on New Year's night, which was enjoyed by a good crowd. After the show dancing was indulged in until a late hour.

The medals which our football team members are entitled to as holders of the Muts Cup in the Crow's Nest Pass League, have at last arrived and reflect credit upon the donors by their slightly appearance.

The disorderly conduct of certain individuals on New Year's night necessitated the early closing of the bar of a certain hotel in this district and the aftermath was held at the police station on Tuesday, when heavy fines were imposed upon the guilty parties.

The officials of the Bellevue mine held a social and dance in the Socialist hall on Friday night, Supr. J. R. McDonald was in the chair and a noteworthy programme was rendered by select artists, after which cards and dancing were heavily indulged in, punctuated by refreshments. A feature of the occasion was the exceptionally fine music rendered

Happenings in and Around Bellevue

Mrs. Arthur Shearer is visiting in Vancouver.

Mr. Contrana and family have moved to Frank.

James Burke was confined to the hospital for a few days last week.

Mr. Shears, of the Leitch Collieries, spent last week in Calgary.

Mr. Fitzpatrick has been laid up with an attack of erysipelas, but is around again.

Jim Donnelly has returned to town after being away all summer.

Bert Ross, who spent the summer at the North Fork, has returned to town.

Mr. and Mrs. R. H. Patton, of Hillcrest, have gone east for the winter.

C. A. McAskill, of Hillcrest, has accepted a position with Triton-Wood Co., at M'Neil.

Mr. Granger, now of Blairmore, was renewing acquaintances in the camp last week.

The Hutton family entertained a number of their friends at their home on New Year's night.

Mr. and Mrs. Morris, of Lundbreck, spent New Year's with Mr. and Mrs. Levi Parker here.

A large number of local sports took in the hockey matches at Frank and Blairmore on the holiday.

Mr. William Sisson has accepted a position at Coleman, and we are sorry to report his removal from among us.

MARRIED-In Lethbridge, on Saturday, Dec. 30, Pre. Carl Folcker, of the R.N.W.M.P., to Miss Catherine Hart, of Bellevue.

It is expected that Bellevue will soon have a brass band that will excel any band in the district. Organization is now under way.

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effectual for colds, croup and whooping cough and that it contains no harmful drug for sale by all dealers.

We all listened for the whistle at the power house to herald the advent of the year 1912, but the only noise we heard was what the wind whistled over the slide from Frank and Blairmore.
